Bespoke Party Booths for Corporate Events

Pergola is a totally new and innovative Photo Booth provider in the United Kingdom. Gone is the old "tin can" Booth. Our light and portable "Fun Booth" can fit into any venue. If you want to know how many people it can hold, we'll ask "How many friends do you have"?

A Pergola "Fun Booth" offers Corporate events a novel and lasting entertainment. It quickly produces superb portraits that guests will enjoy and retain. Pictures of their smiles will be happy memories and appealing souvenirs of a lovely event – this is entertainment with *impact*.

For one all-inclusive price guests receive an unlimited number of high quality digital photos. Each sitting selects colour, B&W or sepia.

The typical display format shows two horizontal strips of three photos with the client's bespoke event insignia in between. Each print is numbered and after the event Pergola can reprint more copies or do individual portrait size prints of any photo by arrangement. We can offer other formats that allow for additional space for your corporate message.

Pergola staffs the booth with a poised and friendly Photoconciierge to guide and assist the guests through the experience. Usually, the Photoconciierge is in formal wear but will happily accommodate any costume.

Exciting Bespoke Décor

Pergola's Design Director can offer wonderfully evocative ideas to harmonise the booth décor with any party theme. The booth can become a Beach Hut with bamboo and reeds, an American Diner with "metallic" sides or a lavish Opera Box! We also can offer several corporate branding options.

Fancy Dress Props

A box of boas, some Venetian masks and hats can make the photos even more fun. Guests can let their imagination run free and Pergola will collaborate with each client to design a unique selection.

Pergola offers unfettered creativity and lavish service. Bespoke décor, costume and insignia combined with the best of today's digital technology help create memories of a wonderful moment and represents your Company in its best light.
